

# 24-26.11.2022

## LATERAL AND ANTERIOR SKULL BASE SURGERY COURSE

### Endoscopic and Microscopic Lateral and Anterior Skull Base Surgery

It is our pleasure to present the Lateral and Anterior Skull Base Surgery Course. The course has been designed to provide high quality training to neurosurgeons, ENT specialists, residents and all colleagues interested in Skull Base Surgery.

The course will include:

- **24.11.2022** - microsurgical lateral skull base approaches (3 hours of dissection for each participant)
- **25.11.2022** - transnasal endoscopic skull base approaches (3 hours of dissection for each participant)
- **26.11.2022** - Post-Course Conference on Skull Base Surgery

We look forward to work with you.
